Supplier Diversity

"I find Amerinet friendly, warm and easy to do business with. Our company goals and issues are always taken into consideration when needed. I find that Amerinet works very hard for us – it is wonderful to have the extra feet on the street and to have someone that has the customer's ear to help us."

"Amerinet has a unique outlook on linking improved healthcare quality and reduced costs for its members. Our two organizations worked collaboratively in 2009 on increasing Amerinet Choice® penetration, which included joint marketing programs to provide the lowest price alternative to members, and standardizing on a new Choice standard label program to promote clinician safety and quality."
